RESOURCE MANAGEMENT PLAN AND
ENVIRONMENTAL IMPACT STATEMENT

APPENDIX W

Parcel Numbers and Legal Descriptions by Resource
Program

Appendix W

Parcel Numbers and Legal Descriptions by Resource Program

The following tables provide more detailed information on parcels identified in Table 2-3 of Volume 1.

Table W-1. 6000 Land Resources – Rights-of-Way and Corridors

Alternative A	Alternative B	Alternative C	Alternative D	Alternative E (Preferred Alternative)
Corridors				
Existing Corridors				
These designated corridors would continue to be the preferred locations for adjacent placement of future rights-of-way (ROW).	Same as Alternative A, except the <u>Oregon Trail Road Corridor, Segment A</u> designation would be removed and a new corridor, the Cabin Creek Corridor, would be designated.	Same as Alternative A, except the <u>Oregon Trail Road Corridor, Segment A</u> would be maintained to allow for additional ROW facilities provided they are subsurface, surface, or low-profile developments. ROW facilities introducing visual intrusions on the skyline along the corridor would not be allowed. The width/size of designated corridors will not change under this alternative.	All corridor designations would be removed. All future ROW development would be evaluated on a case-by-case basis. Under this alternative, no federal acreage would be included in a designated corridor.	Same as Alternative C, except (1) special restrictions applying to types of use/facilities on the corridors would be removed on a case-by-case basis and (2) a new corridor, the Cabin Creek Corridor, would be designated.
<p>The <u>Oregon Trail Road Corridor Segment A</u> is approximately 27.3-miles long and 1-mile wide. This corridor crosses a total of approximately 17,978 acres, of which 5,454 acres are federal surface.</p> <p>The <u>Oregon Trail Road Corridor, Segment A</u> is approximately 1 mile north of the Oregon Trail Road Corridor between the west boundary of the resource area and Oil Mountain. This segment will be used by all types and sizes of facilities. To the extent possible, the southern ½ mile of the corridor width will be used for powerlines and overhead facilities, and the northern ½ mile will be used for pipelines and other buried facilities.</p>	–	<p>The <u>Oregon Trail Road Corridor Segment A</u> is approximately 27.3-miles long and 1-mile wide. This segment will now be used by subsurface, surface, or low-profile developments. ROW facilities introducing visual intrusions on the skyline along the corridor will not be allowed. The width/size of designated corridors will not change under this alternative.</p>
The <u>Oregon Trail Road Corridor, Segment B</u> , is approximately 6.8-miles long, and 1-mile wide. This corridor crosses approximately 4,888 acres, of which 880 acres are federal surface. Segment B extends between Oil Mountain and Casper, generally parallel to the Oregon Trail and over Emigrant Ridge. All sizes of overhead facilities will be considered in this segment.	The <u>Oregon Trail Road Corridor, Segment B</u> , is approximately 6.8-miles long and 1-mile wide. This corridor crosses approximately 4,888 acres, of which 880 acres are federal surface. Corridors				
Existing Corridors (Continued)				
The <u>Oregon Trail Road Corridor, Segment C</u> , is approximately 11.8-miles long and 1-mile wide. This corridor crosses approximately 8,070 acres, of which 346 acres are federal surface. Segment C branches from the Oil Mountain area, around the north edge of Oil Mountain, then along Poison Spider Road into Casper. This segment will be used for all types and sizes of ROW, but primarily for buried facilities.	The <u>Oregon Trail Road Corridor, Segment C</u> , is approximately 11.8-miles long and 1-mile wide. That area, approximately 575 acres, of which 333 acres are federal surface in Natrona County, is being actively stabilized and reclaimed.</p>
Rights-of-Way Use Areas				
Existing				
The <u>Alcova Area Communication Site</u> would continue.	In addition to continuing the existing <u>Alcova Area Communication Site</u> window (which contains three sites), five new communication site windows (ROW use areas) will be designated in accordance with 43 CFR 2806.	The Communication Site window (ROW use area) designation as the preferred locations for adjacent placement of future communication site ROW.	Remove all communication site window (Right of Way Use Area) designations will be removed and will be evaluated all future communication site ROWs on a case-by-case basis. Under this alternative, no federal acreage would be included in a designated Right of Way Use Area (communication site window).	Same as Alternative C, except in addition to continuing the existing <u>Alcova Area Communication Site</u> window (which contains three sites), five new communication site windows (ROW use areas) will be designated in accordance with 43 CFR 2806.
<u>Alcova Area Communication Site</u> (three sites in T. 29 N., R. 83 W., Sections 5, 18; T. 30 N., R. 83 W., Sections 30, 31, Natrona County).	<u>Alcova Area Communication Site</u> (three sites in T. 29 N., R. 83 W., Sections 5, 18; T. 30 N., R. 83 W., Sections 30, 31, Natrona County).	<u>Alcova Area Communication Site</u> (three sites in T. 29 N., R. 83 W., Sections 5, 18; T. 30 N., R. 83 W., Sections 30, 31, Natrona County).	–	<u>Alcova Area Communication Site</u> (three sites in T. 29 N., R. 83 W., Sections 5, 18; T. 30 N., R. 83 W., Sections 30, 31, Natrona County).

Table W-1. 6000 Land Resources – Rights-of-Way and Corridors (Continued)

Alternative A	Alternative B	Alternative C	Alternative D	Alternative E (Preferred Alternative)
Rights-of-Way Use Areas				
New				
–	<u>Twenty-Mile Hill Communication Site</u> (T. 36 N., R. 79 W., Section 3, Natrona County).	–	–	<u>Twenty-Mile Hill Communication Site</u> (T. 36 N., R. 79 W., Section 3, Natrona County).
–	<u>Arminto Communication Site</u> (T. 38 N., R. 87 W., Section 33, Natrona County).	–	–	<u>Arminto Communication Site</u> (T. 38 N., R. 87 W., Section 33, Natrona County).
–	<u>Maverick Butte Communication Site</u> (T. 34 N., R. 89 W., Section 2, Natrona County).	–	–	<u>Maverick Butte Communication Site</u> (T. 34 N., R. 89 W., Section 2, Natrona County).
–	<u>Hell's Half Acre Communication Site</u> (T. 36 N., R. 86 W., Section 24, Natrona County).	–	–	<u>Hell's Half Acre Communication Site</u> (T. 36 N., R. 86 W., Section 24, Natrona County).
–	<u>Dry Creek Road Communication Site</u> (T. 35 N., R. 87 W., Section 18, Natrona County).	–	–	<u>Dry Creek Road Communication Site</u> (T. 35 N., R. 87 W., Section 18, Natrona County).
Avoidance and Exclusion Areas				
The existing restrictions on placement of ROW will continue: Exclusion areas for ROW's contain 352,822 acres of public land. ROW avoidance areas comprise 577,147 acres of public land. These areas are shown on Map 36.	The existing restrictions on placement of ROW will not be carried forward. The ROW avoidance and exclusion areas to be implemented under this alternative are the areas identified as necessary for the protection of specific resource values or uses (e.g., see Biological Resources and Special Designations). Exclusion areas for ROW contain 1,095,500 acres of public land. ROW avoidance areas comprise 190,593 acres of public land. These areas are shown on Map 37.	The existing restrictions on placement of ROW will not be carried forward. The ROW avoidance and exclusion areas to be implemented under this alternative are the areas identified as necessary for the protection of specific resource values or uses (e.g., see Biological Resources and Special Designations). Exclusion areas for ROW contain 755,332 acres of public land. ROW avoidance areas comprise 348,930 acres of public land. These areas are shown on Map 38.	The existing restrictions on placement of ROW will not be carried forward. The ROW avoidance and exclusion areas to be implemented under this alternative are the areas identified as necessary for the protection of specific resource values or uses (e.g., see Biological Resources and Special Designations). Exclusion areas for ROW contain 504,803 acres of public land. ROW avoidance areas comprise 465,391 acres of public land. These areas are shown on Map 39.	The existing restrictions on placement of ROW will not be carried forward. The ROW avoidance and exclusion areas to be implemented under this alternative are the areas identified as necessary for the protection of specific resource values or uses (e.g., see Biological Resources and Special Designations). Exclusion areas for ROW contain 536,610 acres of public land. ROW avoidance areas comprise 410,434 acres of public land. These areas are shown on Map 40.
ROW on <u>Pine Ridge</u> (Resource Management Plan Overlay Area no. 18) will be prohibited, affecting approximately 9,846 acres.	–	–	–	–
Placement of ROW will be restricted on <u>Highway 220 from Bessemer Mountain to Alcova</u> (see Plan Change no. 1). A width for the restriction of ROW along Highway 220, from Bessemer Mountain to Alcova, was not specified. If a 1-mile width is assumed, this prohibition encompasses approximately 23,643 acres, of which 4,413 acres are federal surface.	–	–	–	–

Table W-1. 6000 Land Resources – Rights-of-Way and Corridors (Continued)

Alternative A	Alternative B	Alternative C	Alternative D	Alternative E (Preferred Alternative)
Avoidance and Exclusion Areas (Continued)				
Placement of ROW will be restricted on the newly constructed segments of <u>I-25 in Townships 37, 38, 39, and 40 North, Ranges 79 and 80 West</u> . A width for the restriction of ROW was not specified. Along this interstate highway, a width of 2 miles is assumed (a 1-mile buffer on each side of the highway); this prohibition would encompass approximately 25,330 acres, of which 6,323 acres are federal surface.	–	–	–	–
Placement of ROW will be restricted on <u>Rattlesnake Range</u> , affecting approximately 49,198 acres, of which 26,450 acres are federal surface.	–	–	–	–
Placement of ROW will be restricted on <u>Muddy Mountain elk winter range</u> inclusive of the Muddy Mountain Environmental Education Area (EEA). This restriction encompasses approximately 20,748 acres, of which 1,260 acres are federal surface.	–	–	–	–
Placement of ROW will be restricted within 1 mile of the <u>North Platte River</u> .	–	–	–	–
Placement of ROW will be restricted on <u>Jackson Canyon Areas of Critical Environmental Concern (ACEC)</u> , affecting approximately 14,025 acres, of which 3,939 acres are federal surface.	–	–	–	–
Placement of ROW will be restricted on <u>Squaw Mountain</u> , affecting approximately 3,861 acres, of which 2,403 acres are federal surface.	–	–	–	–
The area lying <u>north and west of the Badwater, Lost Cabin-Arminto, and Buffalo Creek roads and the Red Wall</u> is closed to placement of ROW, affecting approximately 173,824 acres. An exception will be made if oil and gas leases in this area achieve production. At that time, ROW will be allowed only in accordance with an approved oil field development plan. While the area is not closed to ROW needed to transport oil-field development products, the right-of-way must parallel county roads other than the Big Horn Mountain Road, Okie Trail, and Buffalo Creek county roads. This decision restricts ROW to the designated Lost Cabin-Arminto Road Corridor.	–	–	–	–

Table W-2. 6000 Land Resources – Transportation

Alternative A	Alternative B	Alternative C	Alternative D	Alternative E (Preferred Alternative)
The Casper Field Office will pursue acquisition of 16 easements or cooperative agreements for access over about 36 miles of private lands, as listed below: Coral Creek, 3½ miles, T31N, R79W, Sec. 9, SE¼SE¼; Sec. 10, SW¼NW¼, W½SW¼; Sec. 14, SW¼SW¼; Sec. 15, S½SW¼, SE¼, Sec. 16, E½E½; Sec. 23, NW¼NW¼.	Corral Creek, 3½ miles, T31N, R79W, Sec. 9, SE¼SE¼; Sec. 10, SW¼NW¼, W½SW¼; Sec. 14, SW¼SW¼; Sec. 15, S½SW¼, SE¼, Sec. 16, E½E½; Sec. 23, NW¼NW¼.	Corral Creek, 3½ miles, T31N, R79W, Sec. 9, SE¼SE¼; Sec. 10, SW¼NW¼, W½SW¼; Sec. 14, SW¼SW¼; Sec. 15, S½SW¼, SE¼, Sec. 16, E½E½; Sec. 23, NW¼NW¼.	None, acquisition of easements would be on a case-by-case basis.	None, acquisition of easements would be on a case-by-case basis.
Bates Creek Reservoir (Resource Management Plan Overlay Area no. 8), 3 miles, T29N, R78W, Sec. 7, S½SW¼; Sec. 8, S½SW¼; Sec. 16, N½N½; Sec. 17, N½NE¼, NE¼NW¼; T29N, R79W, Sec. 12, SE¼SE¼; Sec. 13, N½NE¼, E¼NW¼, N½SW¼, SW¼SW¼. Table W-3. 7000 Special Designations – Alcova Fossil Area

Alternative A	Alternative B	Alternative C	Alternative D	Alternative E (Preferred Alternative)
<p>The Alcova Fossil Area will be evaluated for significant paleontological resources; a mineral withdrawal from the 1872 Mining Law will be recommended if necessary. No surface occupancy would be allowed inside the withdrawal area. The 1,200-acre Areas of Critical Environmental Concern (ACEC) designation will be eliminated.</p> <p>The identified lands follow:</p> <p>Original Parcel</p> <p>T. 29 N., R. 82 W., Sec. 6, NW¼NW¼</p> <p>T. 29 N., R. 83 W., Sec. 1, E½, NW¼, E½SW¼ Sec. 2, NE¼NE¼</p> <p>T. 30 N., R. 82 W., Sec. 29, SW¼SW¼ Sec. 30, SE¼ Sec. 31, NE¼, SE¼NW¼, E½SW¼.</p>	<p>The Alcova Fossil Area will be designated as an ACEC. Preservation of the paleontological resources will be encouraged by prohibiting all surface-disturbing activities except those in support of scientific research. A mineral withdrawal will be pursued. The area will be closed to off-highway vehicle (OHV) use. No visitor facilities or development will be done in the area. A management plan will be written to identify long-term goals for management and determine allowable activities.</p> <p>The area for designation includes public lands on the north and south sides of Alcova Reservoir, as follows:</p> <p>North Parcel</p> <p>T. 30 N., R. 83 W., Sec. 21, SE¼SE¼ Sec. 22, S½NW¼, SW¼, S½SE¼ Sec. 27, N½</p> <p>South Parcel</p> <p>T. 29 N., R. 82 W., Sec. 4, W½ Sec. 5, E½ Sec. 6, NW¼NE¼, S½NE¼, W½, SE¼ Sec. 7, W½, W½E½ Sec. 8, E½E½ Sec. 9, W½ Sec. 17, E½NE¼ Sec. 18, W½E½, W½</p> <p>T. 29 N., R. 83 W., Sec. 1, E½, NW¼, E½SW¼ Sec. 2, NE¼NE¼ Sec. 12, E½ Sec. 13, E½E½</p> <p>T. 30 N., R. 82 W., Sec. 19, S½NE¼, SE¼ Sec. 20, SW¼ Sec. 29, NW¼, S½ Sec. 30, E½ Sec. 31, NE¼, SE¼NW¼, E½SW¼, W½SE¼ Sec. 32, E½, E½NW¼, NW¼NW¼ Sec. 33, NE¼, W½</p>	<p>The Alcova Fossil Area will be designated as an ACEC. Preservation of the paleontological resources will be encouraged by minimizing all surface-disturbing activities except those in support of scientific research. A mineral withdrawal will be pursued. The area will be closed to OHV use. Visitor interpretation and education facilities will be minimal, using offsite or nearby signs or kiosks. A management plan will be written for any development and to identify long-term goals for management.</p> <p>The area for designation includes public lands on the south side of Alcova Reservoir only, as follows:</p> <p>South Parcel</p> <p>T. 29 N., R. 82 W., Sec. 4, W½ Sec. 5, E½ Sec. 6, NW¼NE¼, S½NE¼, W½, SE¼ Sec. 7, W½, W½E½ Sec. 8, E½E½ Sec. 9, W½ Sec. 17, E½NE¼ Sec. 18, W½E½, W½</p> <p>T. 29 N., R. 83 W., Sec. 1, E½, NW¼, E½SW¼ Sec. 2, NE¼NE¼ Sec. 12, E½ Sec. 13, E½E½</p> <p>T. 30 N., R. 82 W., Sec. 19, S½NE¼, SE¼ Sec. 20, SW¼ Sec. 29, NW¼, S½ Sec. 30, E½ Sec. 31, NE¼, SE¼NW¼, E½SW¼, W½SE¼ Sec. 32, E½, E½NW¼, NW¼NW¼ Sec. 33, NE¼, W½</p>	<p>The Alcova Fossil Area will be managed under a Special Management Area designation. Other resource activities will be allowed to occur only if they do not cause undue degradation to the paleontological resources present in the area. Areas determined to be sensitive to damage will be identified and closed to OHV use. Scientific research will be encouraged. Visitor interpretation and education facilities (e.g., trails, interpretive signs, and kiosks) will be encouraged. A cooperative management approach will be formulated with the Bureau of Reclamation and other parties, as appropriate. A management plan will be written only if public facilities only will be considered.</p> <p>The area for designation includes public lands on the south side of Alcova Reservoir only, as follows:</p> <p>South Parcel</p> <p>T. 29 N., R. 82 W., Sec. 4, W½ Sec. 5, E½ Sec. 6, NW¼NE¼, S½NE¼, W½, SE¼ Sec. 7, W½, W½E½ Sec. 8, E½E½ Sec. 9, W½ Sec. 17, E½NE¼ Sec. 18, W½E½, W½</p> <p>T. 29 N., R. 83 W., Sec. 1, E½, NW¼, E½SW¼ Sec. 2, NE¼NE¼ Sec. 12, E½ Sec. 13, E½E½</p> <p>T. 30 N., R. 82 W., Sec. 19, S½NE¼, SE¼ Sec. 20, SW¼ Sec. 29, NW¼, S½ Sec. 30, E½ Sec. 31, NE¼, SE¼NW¼, E½SW¼, W½SE¼ Sec. 32, E½, E½NW¼, NW¼NW¼ Sec. 33, NE¼, W½</p>	<p>Same as Alternative C.</p>

Table W-4. 7000 Special Designations – National Historic Trails and Other Historic Trails (Continued)

Alternative A	Alternative B	Alternative C	Alternative D	Alternative E (Preferred Alternative)
Should the private surface owner so desire, BLM would prohibit surface disturbance on the following Oregon Trail sites: Oregon Trail Monument, T30N, R70W, Sec. 19, NW¼SW¼; Oregon Trail Monument, T31N, R71W, Sec. 29, Center; Knob Hill, T31N, R72W, Sec. 13, NW¼NE¼; La Prele Station, T32N, R72W, Sec. 10, SW¼SW¼; Parker and Ringo graves, T33N, R76W, Sec. 1, SW¼NW¼; Battle of Red Buttes, T32N, R81W, Sec. 32, SW¼NE¼; Poison Spring, T33N, R81W, Sec. 20, NW¼ and SW¼. These sites were identified in the Historic Trails Management Plan issued by the Wyoming Recreation Commission in December 1984.	Pursue agreements prohibiting surface disturbance with private land owners on private trail segments per list in 1985 Resource Management Plan.	Enter into agreements prohibiting surface disturbance on private trail segments when approached by surface owners.	Do not enter into agreements prohibiting surface disturbance on private trail segments.	Enter into agreements to manage surface disturbance on private trail segments when requested by surface owners.
